

(3) Med 3

1 As the draft order stands, no approving authority is specified for the medical board and the authority for release action would appear to be with CHQ.

2 To ensure more adequate control and to reduce the chances of another débacle such as occurred recently I suggest para 2 of the CAFAO be amended to read:

"A medical board composed of a minimum of two medical officers shall submit forms ISM 17, Medical Board Proceedings, through CHQ to AFHQ recommending release from the service of all persons not convicted of an offence referred to in para 1 who have been diagnosed by either a MO or a psychiatrist as a "psychopathic personality - homosexual type". On approval of the board by DGMS(Air), release shall be effected by AFHQ under the provisions of the table to QR(Air) art 15.01 item 5(b)(iii), "Being considered unsuitable for reasons other than misconduct, inefficiency or medical unfitness"."
