Ref T202-5-57 (800cc) dated 13 Jan 58

Air Officer Commanding,
Training Command, RCAF
RCAF Station Trenton,
Ontario.

Suspected Homosexual
RCAF Station Clarendon

- 1 A recent field investigation has produced further allegations of homo-sexuality in regard to the above individual. The evidence quoted is inconclusive as you will observe from the attached report.
- 2 Because this airman is a member of the AFP and those allegations have a bearing on his security clearance status, it is essential that they be more fully supported or refuted.
- 3 With due regard to the provisions of CAFAD C14.00/01 it is requested that this matter be brought to the attention of the CO of RCAF Stn Clarendon for further investigation.
- 4 Subject to the approval of the CO it is suggested that this airman be kept under discreet surveillance by the WDO i/c AFP at Clarendon together with those of his staff in whom he may rely. It would also seem useful to inform the WDO i/c AFP at Pembroke of the circumstances so that he might discreetly ascertain the attitude of the father of the 14 year old boy, mentioned in para 3 of the attached report, and follow whatever investigative leads may arise therefrom.
- 5 If these suggestions are acceptable it is advised that the services of S/DET Calgary may be employed as and when the CO of Stn Clarendon requires in accordance with AFAD 22.00/03, although it is suggested that local AFP, being close to the subject, could in this case be more effective.
- 6 As this headquarters is particularly concerned in this case it would be appreciated if we might receive early advice of the results.
