**RE OFFICER - Operational Control**  
[Redacted] of [Redacted]  
RAF Station Portage la Proulx

1. Enclosed are copies of two letters received from RAF Station Portage la Proulx concerning allegations of unusual contact between [Redacted] and [Redacted] employed in the Supply Section of Station Portage.

2. It is requested that [Redacted] proceed to Station Portage la Proulx together with any investigator(s) he may wish to assign to the case. The CO and/or SAC of the station is to be informed that

- (a) WSW is proceeding with this investigation under the provisions of CSIS 878.00/53 (1) (a) rather than as a security clearance investigation because WSW can only accept security clearance investigational requests from AFHQ;
- (b) as a result of this investigation and if circumstances warrant, any AFHQ action will depend on what career action, if any, is taken by the CO or WSW in accordance with CSIS 878.00/53.

3. From a WSWQ viewpoint, it is not necessary for FC Supervisor to remain at Station Portage once he has informed the CO in accordance with para 2. However the investigator(s) should use the utmost discretion because of the nature of this case.

4. For your information the only record held by WSW on either FOWLST or FOWLT is a favourable credit check conducted on FOWLST at CSIS House in 1952 by your detachment.

5. Your file should include more specific details of the allegation.

*Alley's*  
(in [Redacted])  
for CO WSW
