STATEMENT OF _____

Note - Subject was cautioned in accordance with OR (Air) 101.12.

"BEGINS" - The first time it occurred I wanted to go and see somebody. But figure they would burst out laughing at me & discourage me. Second time was going to the Medical Doctor to ask for help. It happened so suddenly & wish to have treatment. Not realizing the embarrassment it would cause to me and the person concerned. Afterwards this incident has sickened me, To think that I actually done this. Would be very happy if I could get treatment from the Medical Doctor. This has only started recently in the last couple of weeks & I would like to have this stopped before it happens again. "ENDS"

Witnessed KW Stephensen Sgt
