PSP-129

Our memorandum PSP-128 - January 31, 1977

Item No. (7) - Homosexuality
Special Security Committee Meeting

We were able to complete the draft policy paper in time to go with the general memorandum under reference.

2. I should emphasize that this is a draft paper from PSS with which I concur, but it has not been discussed (except in general terms) within the Department. I believe that it would be helpful from a departmental point of view (provided you agree with the contents) to circulate the paper to colleagues and ask them to send to you or this Bureau their comments. These comments would help us in refining the paper in the Department and in contributing to interdepartmental discussions on the subject.

PSI
PSS

3. Even if you do not yourself fully accept all the paper's conclusions, it would be possible to give it to your colleagues for the purpose of promoting discussion.

J.G. Hadwen,
Director General,
Bureau of Security and Intelligence Liaison

this is still a draft (and may not be approved by your committee) - appreciate we will be commenting to you.

this is still a draft (and may not be approved by your committee) - appreciate we will be commenting to you.

your comments would be appreciated to you.
J.G. HADWEN.
