Dear Dick:

Please convey to the D.G. my appreciation of his letter of 15 February, 1982.

With respect to the clippings enclosed with his letter it is noted that the story entitled Ill-fet in Moscow by John Sawatsky dated 13-6-1981 is incomplete as the Monday issue of the Ottawa Citizen entitled Interrogation and Death was not included. As there may be further extensions of his account by Sawatsky would you please provide me with copies of his whole story.

If there is any further publicity concerning this matter I would appreciate your cooperation in making copies available to me.

[REDACTED] has also written me a letter of February 15 providing official documentation concerning the unfortunate demise of Rackbottom. I am still waiting for confirmation or otherwise of a Hawaiian rendezvous for the final stage of the coroner's enquiry for May 7 to 10 to meet my expectations.

With best wishes to you, Jim Warren (Inspector) - congratulations on his elevation - and to anyone else of the old brigade, including Harry Brandes.

Yours sincerely,

Jim Bennett
L.J. Bennett.
