REVIEW OF CANADIAN FORCES POLICIES
PART I - EMPLOYMENT OF WOMEN AND
EXCLUSION OF HOMOSEXUALS

1. Attached is the latest version, in final form, of the paper on the CF policies concerning the employment of women, and the exclusion of homosexuals. It contains the amendments directed by CDS on the last draft, as well as corrections due to information that has become outdated since, i.e., statements as to what the Equality Rights Subcommittee was expected to recommend have been changed to reflect the report's actual recommendations.

2. Information was received on 28 Oct 85 that a Cabinet discussion of these two issues might be imminent. Therefore it was decided to produce the paper in its present form which, while preserving it as a 'stand-alone' document for immediate use if required, also provides for the addition of a second paper on the other issues, mandatory retirement ages, physical and mental standards, and marital status.
